

# Mapping Test - (Study Guide)

## \* STUDY GUIDE \*

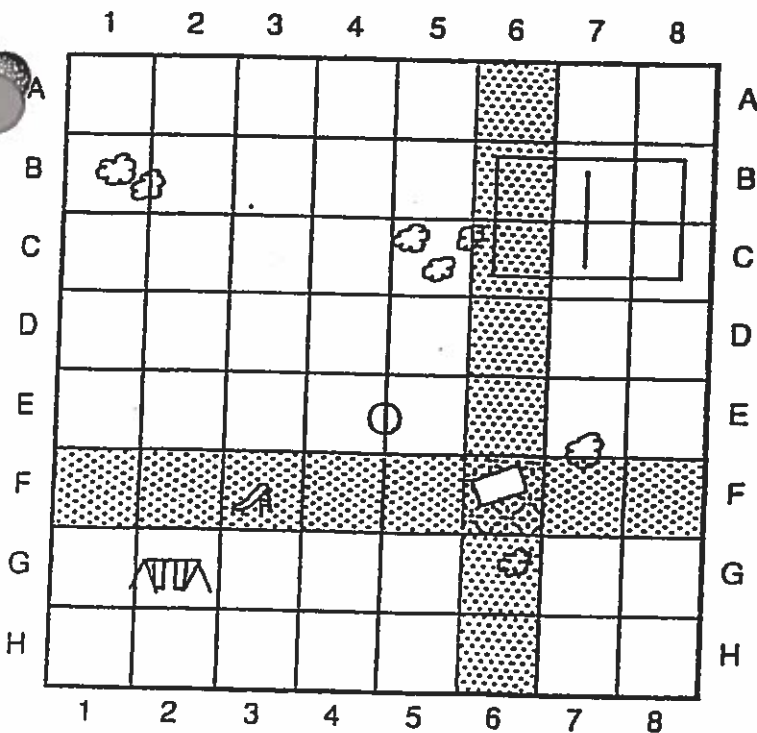

What you need to know:

- 1) List five items all maps should have (title, legend, scale, year, direction).
- 2) Identify the seven continents.
- 3) What is a map?
- 4) What colour is land and/or water on a map?
- 5) What is a compass rose?
- 6) Label a compass rose with the directions in the proper location.
- 7) Answer questions based on symbols/legend on a grid map.
- 8) How many provinces and territories does Canada have?
- 9) Understand how a scale works on a map.

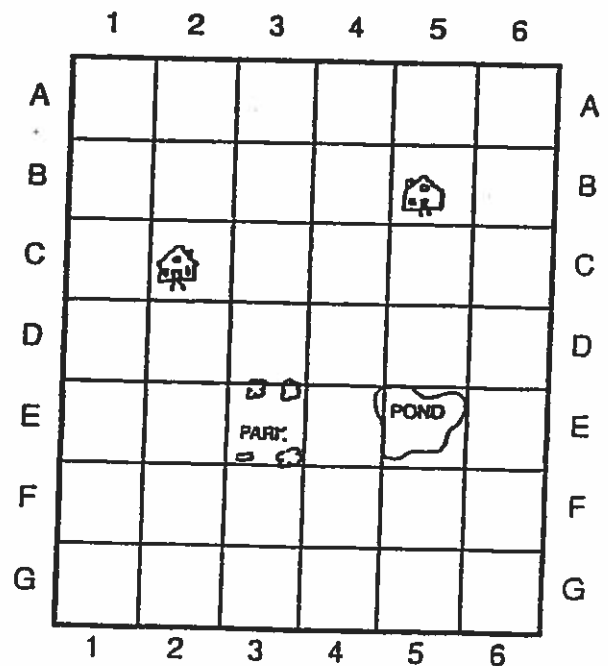

- Use the cardinal directions to find things on a map

Example of grid map.

MAP 1
